

the CRACKER BARREL

Honoring the age-old tradition of when early German settlers of Schaumburg shared the day's stories and news with one another while sitting around the cracker barrel.

SCHAUMBURG APPROVES MASTER PLAN FOR THE DISTRICT

Schaumburg's Village Board unanimously approved a comprehensive development framework for The District at Veridian, which will include more than one million square feet of retail, restaurant, residential and office space making it the largest mixed-use development in the village.

Officials approved the measure at the June 13 Village Board meeting for the land located west of Meacham Road, south of Algonquin Road, and north of Progress Parkway. This dense development is proposed to create a uniquely urban experience, which will provide opportunities for shopping, dining, living and working all within a pedestrian-friendly, walkable neighborhood.

The village has been working to refine the design and layout of this proposed development for The District for the past several years. The area is essentially divided

into four main blocks with additional outlots wrapping around Meacham and Algonquin roads, as well as the center median area on Veridian Boulevard.

The framework plan approves conceptual plans for The District. A more detailed review of individual components of the development will take place at various stages of the project. Construction on the first block is anticipated to begin in 2024.

The District is one development within the village's larger redevelopment of 90 North. For more information on 90 North progress, visit the website at www.90northschaumburg.com.

MAYOR DAILY INAUGURATED AS PRESIDENT OF NORTHWEST MUNICIPAL CONFERENCE

Schaumburg Village President Tom Dailly was recently installed as the President of the Northwest Municipal Conference (NWMC). His term runs through June 2024.

The Northwest Municipal Conference is a membership-supported association of 42 municipalities and one township representing a population of over 1.2 million Illinois residents. Established in 1958, the Conference serves to strengthen local government and enhance intergovernmental cooperation in the north and northwest suburbs of Chicago.

The installment took place June 14 at the NWMC's Annual Gala at the Hyatt Regency Deerfield. One hundred and forty members and guests celebrated the accomplishments of outgoing NWMC President and Deerfield Mayor Dan Shapiro as well as the inauguration of President Dailly.

Conference initiatives for the year include continued increases in the Local Government Distributive Fund; protecting use of Tax Increment Financing (TIF) and other economic development tools; increased

utilization of the Suburban Purchasing Cooperative; collaboration with the Illinois Department of Transportation to improve and expedite project approval processes; and discussions to create a new strategic plan. For more information on NWMC, visit www.nwmc-cog.org.

Schaumburg Celebrates 25 Years of Airport Terminal Building

Schaumburg officials along with members of the aviation community joined together on June 7 to celebrate the 25th anniversary of the terminal building at Schaumburg Regional Airport. Village President Tom Dailly provided welcome remarks and encouraged attendees to view the contents of the airport time capsule that was sealed at the dedication of the Schaumburg

Regional Airport Terminal Building on June 6, 1998. Some of the items in the capsule included a mason's trowel from the groundbreaking, a site plan and renderings of the building prior to construction, pilot patches, and other stories and photos commemorating the year when the building was dedicated.

The airport is home to approximately 90 aircraft and handles about 45,000 operations per year. The airport also generates an annual economic impact of about \$34 million and operates numerous successful businesses that offer flight training, aircraft and helicopter services, and much more. Construction of the terminal building has resulted in the continued success of the airport, the aviation-themed Pilot Pete's restaurant, and the ability to enhance connections with the community through various events such as the Father's Day Pancake Breakfast, Hops and Props in the fall, and Santa's Fly-In in the winter. For more information, visit the village's website at www.schaumburg.com/airport, contact Erik Trydal at etrydal@schaumburg.com or dial 311 in Schaumburg.

Experior Transport Groundbreaking

In May, Schaumburg village officials attended the groundbreaking event held for Experior Transport, which is a transport and logistics company that is developing the 55-acre property located at Irving Park and Rodenburg roads. Village President Tom Dailly provided a brief welcome to attendees followed by highlighting the project's many benefits to the community.

Experior plans to construct a 140,000-square-foot corporate headquarters, warehouse space and fueling station in addition to truck parking. The completion of this project is anticipated to result in more than \$40 million being invested into the property as well as 200 new high-paying jobs and annual tax revenue of more than \$425,000 for the Village of Schaumburg and other taxing bodies. Construction is anticipated to be underway soon.

In addition, a new access road and bike path will connect Rodenburg Road to the Schaumburg Metra Station parking lot through a \$1.25 million Rebuild Illinois Regional Economic Development grant from the State of Illinois as part of the project. For more information, visit the village's website at www.schaumburg.com/experior, contact Matt Frank at mfrank@schaumburg.com or dial 311 in Schaumburg.

Curbside Electronics Recycling Event

Residents who receive curbside refuse service will be provided the opportunity to participate in a free curbside electronics recycling event beginning the week of Oct. 2. Households must register by Sept. 22 to have curbside electronics collected during this special

recycling event. For more information, visit the village's website at www.schaumburg.com/garbage-recycling, contact Megan Buck at mbuck@schaumburg.com or dial 311 in Schaumburg.

Check Presented for Schaumburg's First All-Electric Vehicles

Congressman Raja Krishnamoorthi and his staff met with Schaumburg Village President Tom Dailly, village trustees, and others July 10 to present the village with a \$166,000 check in support of the village's proposal to implement an

electric vehicle pilot program. The electric vehicle pilot program helps move forward some of the initiatives and concepts identified in the village's comprehensive green action plan and advances the goals of several federal, state, and local initiatives.

The funding will be used to replace two aging vehicles, a 2013 Dodge Ram and a 2011 Ford F-250 – both of which have internal combustion engines. The vehicles will be replaced with two all-electric Ford E-Transit Cargo Vans. The new vehicles will be used by the village's Building Division, which will allow the village to maximize efficiency of building repairs by being able to store more material in the vehicles and minimize trips. Pilot program funding will also be used to install the charging infrastructure needed for the new vehicles.

Incorporating all-electric vehicles allows the village to lower maintenance and fuel costs, reduce pollutants, collaborate with partners at ComEd and other regional stakeholders, and continue to advance sustainable initiatives.

The Village of Schaumburg owns and maintains a fleet of 153 police, fire, and public works vehicles. For more information on the village's sustainable initiatives, visit the website www.schaumburg.com/greencorner, contact Martha Dooley at mdooley@schaumburg.com or dial 311 in the village.

PUBLIC SAFETY

DRONE PROGRAM

Drones, also known as Small Unmanned Aircraft Systems (sUAS), improve situational awareness and enhance responses to incidents and events. Recently, the police department implemented a drone program. As part of the program, the department established a policy that follows the Illinois Drones as First Responders Act, industry standards and Federal Aviation Administration requirements.

The Illinois Drones as First Responders Act regulates the use of drones by law enforcement in Illinois. This law seeks to protect the privacy of the public while allowing law enforcement to use drones under certain circumstances. As part of the program, the police department purchased two drones that can be used to:

- Assist with crime scene and traffic crash documentation
- Aid in the search and rescue of missing persons
- Assist with dispatched calls for service to coordinate the response of emergency vehicles and personnel
- Provide real-time information and monitor participant safety during special events
- Aid in assessing a natural disaster or a public health emergency

The department's drone operators must successfully pass the Federal Aviation Administration Part 107 Remote Pilot License examination and are subject to the Schaumburg Police Department's sUAS policy. For questions, contact Deputy Chief Joseph Dugan at jdugan@schaumburg.com or dial 311 in Schaumburg.

Fall Citizen Police Academy

The fall session of the Schaumburg Police Department's Citizen Police Academy (CPA) begins Wednesday, Sept. 6. The CPA provides the opportunity for members of the community to meet and interact with members of the Schaumburg Police Department on a personal level.

Typically, two sessions are held each year – one in the spring and one in the fall. Each CPA session meets once a week for 10 weeks with classes held from 6 p.m. to 8 p.m. on Wednesday evenings. Participants must attend 75% of the sessions to be eligible for graduation and to join the Citizen Police Academy Alumni Association of Schaumburg. Schaumburg residents and employees of Schaumburg businesses, ages 18 and older, are eligible to participate. Fall Citizen Police Academy interactive sessions offer an inside look at how the police department functions. Highlights include a patrol ride-along with an on-duty officer, mock traffic stops, and the opportunity to ask questions of police personnel. To participate, please complete and submit the online application on the village's website at www.schaumburg.com/cpa. For questions, contact Paula Diaz at pdiaz@schaumburg.com or dial 311 in Schaumburg.

New Fire Engine

The Schaumburg Fire Department recently took delivery of a new fire engine on June 8. The new engine sports a hydraulic ladder rack allowing for more compartment space to accommodate additional tools and equipment. It also has a lower hose bed, making

the process for deploying hose safer and faster for firefighters. Lastly, a new lighting package was installed to increase visibility while responding to emergency calls. This should reduce distraction and visual obstruction for drivers, ultimately making it safer for the firefighters by minimizing the chance of an accident.

This past May, members of the Fire Department and Fleet Services traveled to Appleton, WI, to conduct a thorough inspection of the vehicle to ensure it was built to village specifications. Building the apparatus took 18 months. This engine represents the 10th apparatus purchased from Pierce Manufacturing, one of the leaders in the fire apparatus manufacturing industry.

Once fully outfitted with hose, tools, and communications equipment, this new engine will be assigned to Station 51 on Schaumburg Road replacing a 15-year-old engine of a similar build. The current Engine 51 will be refurbished to significantly extend its life. Then the apparatus will be placed into a reserve status, meaning it will be used when a frontline engine breaks down or is scheduled for maintenance. For more information, contact Tony Piccolo at apiccolo@schaumburg.com or dial 311 in Schaumburg.

Commercial Motor Vehicle Traffic

Although the summer construction season is winding down, there continues to be a large amount of commercial motor vehicle (CMV) traffic in the Village of Schaumburg. Per village ordinances, most Schaumburg roadways are limited to a maximum of five tons or 10,000 pounds. Residential streets have a posted traffic sign indicating that vehicles exceeding the weight limit are prohibited from driving on the roadway. These signs only restrict vehicles over 10,000 pounds from using the street as a cut-through to another street. Trucks may still use weight-restricted roadways if they have a destination on that street or if that street is the only way to gain access to their destination.

If you see a CMV driving down a residential street and wish to report it to the Schaumburg Police Department, please try to obtain the license plate number of the vehicle and the truck number for easier follow-up. If your complaint about CMVs requires immediate attention, please dial 911. If your complaint involves an ongoing problem or you have general questions, please contact the non-emergency line at (847) 882-3586 and ask to speak to a Traffic Unit representative. Additionally, when driving around CMVs, remember to never tailgate, pass a truck on the right, or try to beat the truck. Always let the truck pass, assume the truck is carrying a full load (and takes longer to stop), and use your turn signal. For questions, contact Sgt. Adam Wis at awis@schaumburg.com or dial 311 in Schaumburg.

FIRE DEPARTMENT NEW CANDIDATE TRAINING

This year, the Schaumburg Fire Department (SFD) has welcomed 10 new candidates. As part of the onboarding process, all 10 candidates participated in two weeks of day shifts which began the day after they were sworn in. During this time, candidates rotated through each of Schaumburg's five stations to learn the basic skills associated with each company and apparatus as well as daily routines and expectations of company officers. Additionally, they took part in orientations with all three chiefs, the department's Emergency Medical Services (EMS) Coordinator and the department's Training Division. On the final day of onboarding, candidates visited Station 51 and participated in an auto extrication drill. Additional time has been spent at Elk Grove's Training Tower where the candidates practiced live fire training and engine operations.

Over the course of the next year, each candidate will work on completing their candidate task book, which highlights specific fire and EMS-related skills and quarterly exams that must be completed and passed before their candidacy period ends. During this time, some candidates will also attend the fire academy in Romeoville and begin paramedic school through Harper College to satisfy additional department requirements.

Interested in joining the internationally accredited Schaumburg Fire Department? Visit the village's website at www.schaumburg.com/firecareers. For questions about training, contact Capt. Cory Ball at cball@schaumburg.com or dial 311 in Schaumburg.

FIRE PIT AND ASH DISPOSAL SAFETY

With fall weather approaching, many people turn to fire pits or outdoor fireplaces for extra warmth at outdoor gatherings. Just as with fireplaces in the home, there are key things one must do to ensure safety before and after use:

- Inspect the fire pit. To prevent unwanted fire spread, make sure there are no loose bricks, cracks in masonry pits or rusted holes in premanufactured pits.
- Only burn firewood. Branches you just trimmed, old paperwork/mail or left-over construction material is not meant for firepits or outdoor fireplaces. These products produce a lot of smoke, potential toxic gases as well as possible large embers that will rise and land in areas you might not want them to, such as your or your neighbor's roof.
- Be ready to extinguish the fire. Keep a proper fire extinguisher nearby or ensure quick access to your garden hose.
- Practice proper ash disposal. When disposing of fire pit or charcoal ash, you first must wait until it is cool enough to handle. While water will help cool the ash, it can also cause damage to some fire pits or outdoor fireplaces by cooling the metal or masonry too fast. After cooling, place the ash in a metal receptacle that has a lid until it is time for disposal with other household garbage. Last year, about 25% of all residential fires in Schaumburg were due to improper disposal of ashes and similar materials.

As a reminder, a permit is required if you are considering installing a permanent fire pit or outdoor fireplace in Schaumburg. For more information on permits and other requirements for both permanent or portable outdoor fire pits, visit the village's website at www.schaumburg.com/residentialpermits, contact Tony Piccolo at apiccolo@schaumburg.com or dial 311 in Schaumburg.

BUSINESS & DEVELOPMENT

Palfinger Opens North American Headquarters in Schaumburg

Recently, Palfinger hosted a grand opening celebration for its new North American headquarters at 2324 Palmer Dr. The remodeled 40,100-square-foot facility provides state-of-the-art training and educational services for Palfinger employees and customers. Palfinger specializes in lifting solutions including cranes, forklifts, liftgates and bucket trucks. The headquarters will have 40 employees working from the facility with the opportunity to expand and grow up to 100 employees. This location will serve as Palfinger's main sales and training office in North America, and it will be used to host clients from all over the world. For more information on Palfinger, visit www.palfinger.com.

SMALL BUSINESS SPOTLIGHT

Dominick's Villa Rosa Pizzeria

1861 W. Golf Rd.

Dominick Manzella Sr. has been in the restaurant business since 1967. He started at the young age of 17 and has never worked for anyone but himself. He has run and sold many restaurants before landing in Schaumburg 12 years ago. Located at 1861 W. Golf Rd., Dominick's Villa Rosa Pizzeria is owned and operated by Dominick Sr. and his son Dominick Jr. They use family recipes from Palermo, Sicily, and Dominick Sr.'s mom to create their authentic Italian dishes.

The Manzellas pride themselves on using only the freshest ingredients, fantastic customer service from their order taker Emily, who they say is worth her weight in gold, and fabulous cuisine. Dominick's Pizzeria offers lunch specials with pizza by the slice seven days a week and they deliver to your doorstep. They invite you to try their best-selling pizza and lasagna, which are customer favorites. For more information, call (847) 843-4300 or visit their website www.schaumburgpizzadelivery.com.

FEATURED BUSINESS OF THE MONTH

June: Illinois Bone & Joint Institute – 140 S. Roselle Rd., Suite A

Illinois Bone & Joint Institute (IBJI) provides complimentary injury screening, physical therapy, dry needling, sports medicine, industrial rehabilitation, video gait analysis, performing arts rehabilitation and other services. Kurt Hutchinson is the facility manager and a physical therapist at the Schaumburg location.

IBJI is very active in the community through its participation in the Schaumburg Business Association and the School District 54 Education Foundation. The IBJI CARES Foundation provides funding, education, community outreach and service opportunities throughout the Chicagoland area. IBJI is also the official sports medicine partner for the Schaumburg Boomers. For more information, visit www.ibji.com.

GETTING AROUND TOWN

CONSTRUCTION PROGRESS

National Parkway Reconstruction

National Parkway is closed to through traffic from Golf Road through American Lane as the roadway reconstruction project continues. Major components of the project include large-scale storm sewer replacement and the installation of a roundabout at American Lane. Improvements are currently scheduled to be completed by the end of 2023. For questions, contact Brent McQueen at bmcqueen@schaumburg.com or call the Construction Hotline at (847) 923-6681.

Rodenburg Road Reconstruction

Excavation and embankment improvements adjacent to the roadway are expected to begin soon and continue through the fall of 2023. Work is expected to be completed with short, temporary lane closures; impacts to traffic and access are expected to be minimal. Full

reconstruction of Rodenburg Road from Irving Park Road to Central Avenue in Roselle is scheduled to begin in the spring of 2024. Access along Rodenburg Road is expected to be heavily restricted or closed for the entire 2024 construction season. For questions, contact Brent McQueen at bmcqueen@schaumburg.com or call the Construction Hotline at (847) 923-6681.

Street Improvement and Water Main Replacement Programs

Work continues on both programs and is scheduled to be completed this fall. For the latest updates on these projects, visit the Schaumburg Construction Dashboard at www.schaumburg.com/construction-dashboard. For questions, contact Syed Mansoor at smansoor@schaumburg.com or call the Construction Hotline at (847) 923-6681.

New Online Construction Dashboard

The village has created a new online construction dashboard for the public to access the latest information on the status of Capital Improvement Plan projects currently under construction or soon to be under construction in Schaumburg. This easy-to-use tool features an interactive map with filters that allow users to further refine results by street name, project type, or phase. Regular updates can be viewed in the project updates column, and every project can be

clicked on in the map to reveal its description, category, priority, and contact person for questions. In addition to viewing the dashboard at www.schaumburg.com/construction-dashboard, users can sign up to receive construction updates via email. For more information on the construction dashboard, contact Crystalyn Delacruz at cdelacruz@schaumburg.com, visit the village's website at www.schaumburg.com/construction or dial 311 in Schaumburg.

CELEBRATING BIKE MONTH

The village celebrated Bike Month in June with a variety of activities and events. The Business Bike Classic, a team bicycle challenge between employees of businesses and organizations located in Schaumburg, returned for its fifth year. In all, 15 teams from seven area businesses and organizations participated, including the American Society of Anesthesiologists; Forth, Inc.; HOH Group; Illinois Department of Transportation; Paylocity; Village of Schaumburg; and Zurich North America. The total mileage of all teams combined was more than 9,000 miles. Awards were distributed to teams in novice, intermediate, and advanced tiers. The winning teams were Samm Cwinten, Bill Lindberg, Sam Goodman, and John Zumski of Z Cycle De Lego; William Sadlick, Daniel Wyskochil, Allison Albrecht, and Peter Schaak of Basement Bikers; and Adam Bauske, Derek Dodson, Christine Young, and Blair Gilfillan of #BikePCTY.

The Student Bike Classic kicked off its first year with six participants. This individual bicycle challenge was open to elementary, middle, and high school students located in Schaumburg from Districts 54 and 211. Individual students recorded their cycling mileage completed during the month of June and awards were distributed to the highest mileage in each level of education. The students completed a total mileage of 223. The winning students were Violet Messerges and Violet Thorson (pictured below).

The Village of Schaumburg congratulates the Business and Student Bike Classic winners and extends its thanks to all Bike Month participants and sponsors including 7 Mile Cycles, Ala Carte Entertainment, Al Larson Prairie Center for the Arts, Egg Harbor Café, Lou Malnati's, Ride Illinois, Raising Cane's, Schaumburg Boomers, Kryder Law Group, LLC, and Schaumburg Park District.

Pace Breaks Ground on Improvements to Northwest Transportation Center

Schaumburg elected officials joined Pace leaders, state representatives, local officials, and others at a ceremony held July 19 to break ground on a new ADA Transfer Facility adjacent to the Northwest Transportation Center. The project, which is being funded by Rebuild Illinois funding, will transform a critical hub for paratransit with new assets that promote accessibility, expand capacity, and enhance comfort and aesthetics for people with disabilities and other commuters. Improvements to the site include the demolition of the former Schaumburg Post Office and the renovation of an existing facility that will accommodate customers, for the first time, with indoor waiting area and public restrooms.

The Pace Northwest Transportation Center is a major hub with over 1,000 daily boardings for Pace service, including I-90 Express buses which utilize the Illinois Tollway I-90 Flex Lanes to bypass

congestion and connect commuters to the CTA Blue Line at Rosemont. The new transit center and ADA Transfer Facility will include two new dual-port car charging stations, with capacity for four electric cars, an expanded drop-off area, and new Pace branded signs with real-time bus departure information. New sidewalks will provide pedestrian access from Mall Drive and Kimberly Drive to the bus terminal, and parking capacity will increase from 192 spaces (6 ADA) to 301 spaces (8 ADA) to support the popular I-90 Express services. Other improvements include landscaping and site furnishings, seating, Ventra ticketing, and digital and audio bus arrival information. For more information on Pace services offered in Schaumburg, visit the village's website at www.schaumburg.com/pacebusroutes, email Marisa Krawiec at mkrawiec@schaumburg.com or dial 311 in Schaumburg.

AWARDS & RECOGNITION

EPW Drawing Contest Winners Recognized

On May 20, winners of the Village of Schaumburg's Engineering and Public Works Department (EPW) drawing contest were recognized by the village at the EPW Open House. The contest provided local students, grades K-8, the opportunity to draw a picture of

"What Public Works Means to Them." Of the submissions received, the artwork of two students was selected: Dominik Rosa, 1st grade, and Noa Okada, 5th grade. Congratulations to the winners and thanks to all who participated!

Village of Schaumburg Recognized as Outstanding Navy Reserve Employer

The Village of Schaumburg was recognized as one of America's outstanding Navy Reserve employers for 2023 during the Navy Employer Recognition Event (NERE) held in San Diego on June 7.

The annual event recognizes employers who provide outstanding support to Navy Reserve sailors who work for their organizations in a civilian capacity. The all-day event included tours of Navy ships including USS Carl Vinson (CVN 70), static displays of aircraft and facilities and a dinner reception with flag officers and representatives from Employer Support of the Guard and Reserve (ESGR).

Schaumburg was one of approximately 50 civilian employers from across the nation that was recognized at the event. Human Resources Director Jean Bueche accepted the award on the village's behalf.

NERE provides an opportunity for employers to get better acquainted with the military commitments of their employees who are members of the Navy Reserve, providing a deeper understanding of the importance of employer support to Navy warfighting readiness.

The village regularly demonstrates its support of veterans, those transitioning from active military duty, and Reserve and Guard personnel. In addition to the support and commitment shown

in village efforts with ESGR, the village is expanding its abilities to attract veteran and active military candidates, to support and recognize those with prior and current military service, and to position the village effectively as a "military friendly" employer. For more information on employment with the Village of Schaumburg and to view open positions, please visit the website at www.schaumburg.com/humanresources, email recruitingteam@schaumburg.com or dial 311 in Schaumburg.

Senior Follies

Sunday, April 14

NEWS BRIEFS

Fall Cost Share Reforestation Program

The Village of Schaumburg will continue the process of replacing ash trees through its ongoing cost share reforestation planting program this fall. The village is offering a cost share option to any resident who wishes to have their tree planted sooner than what is otherwise scheduled. To take advantage of this program, participants should create a Customer Service Request or dial 311 in Schaumburg to request participation in the fall 2023 program. The resident shall pay a percentage of the replacement cost for an approximately 2-inch diameter tree.

Participants will receive a letter requesting their first and second selections when ordering trees to increase the chances that a tree of their choice will be available. Species and pricing can be found on the village's website at www.schaumburg.com/costsharetree. Payment for the Cost Share Program can be made online through WebPay at www.schaumburg.com/webpay or in person at the Finance counter inside the Robert O. Atcher Municipal Center, 101 Schaumburg Ct. For questions, contact Justin Briski at jbriski@schaumburg.com or dial 311 in Schaumburg.

Mailbox Maintenance

Now is the perfect time to maintain your mailbox before the grip of winter. As a reminder, maintenance of mailboxes is the responsibility of the property owner and the care of your mailbox should be an annual part of your property maintenance. Please review the following:

- Ensure that your mailbox complies with village regulations. The face of the mailbox should be 12 inches behind the back of the curb to allow snowplows to pass without contacting the mailbox. If your mailbox is not 12 inches behind the back of the curb, please consider relocating it.
- Check that your post and arm are secure and solid enough to take the weight of snow coming off a snowplow. If your post is not secure, please make the necessary repairs that will allow your mailbox to last through the winter months.
- Confirm that the mailbox door and signal flag function properly and that there are no sharp edges on the mailbox.

For questions, contact John Williams at jwilliams@schaumburg.com or dial 311 in Schaumburg.

FALL LEAF SWEEPING

This fall, the village's Engineering and Public Works Department will be removing leaves in the neighborhood that have fallen into the streets. This important program is designed to remove naturally deposited leaves from curbs and gutters before they accumulate on storm sewer inlets, which if not removed could potentially increase the risk of street flooding. Residents should not take leaves from their yards and move them into the street for pick up by the street cleaning equipment. For more information, contact John Williams at jwilliams@schaumburg.com or dial 311 in Schaumburg.

Garbage Collection Day Reminders

Residents are reminded that garbage, recycling and landscape waste shall be placed curbside on the day of collection no later than 7 a.m. and may be placed the day prior to collection according to these seasonal requirements:

- After 6 p.m. from April 1 through Sept. 30
- After 4 p.m. from Oct. 1 through March 31

When putting carts out at the curb, handles should be facing the property with the lid opening toward the street. Arrows are marked on the lid of the cart to remind residents which way the cart should face to ensure Lakeshore Recycling Systems' trucks can easily pick up the carts to dispose of its contents. For more information, contact Deborah Parran at dparran@schaumburg.com or dial 311 in Schaumburg.

Village Outreach Program Available to Community

The village's Communications and Outreach Department continues to seek ways to connect residents with resources available in the community and keep them informed on the latest happenings in Schaumburg. As part of the initiative, Communications staff is hosting outreach events with interested organizations and community groups both in person and virtually. Potential topics discussed include the development of the new entertainment district; community-wide events and festivals; ways to get involved in the community; road maintenance and improvement projects; nursing and mental health services; and new businesses and dining opportunities. For more information about the village's outreach program, or if you are part of a group that is interested in having an outreach presentation, contact Josie Beecher at jbeecher@schaumburg.com or dial 311 in Schaumburg.

WATER QUALITY REPORT

The Village of Schaumburg is proud to provide residents with its annual water quality report, which includes drinking water facts and information on violations (if applicable) and contaminants detected in the drinking water supply. This report covers water tested from Jan. 1, 2022 through Dec. 31, 2022.

The Village of Schaumburg's drinking water has met all United States Environmental Protection Agency and state drinking water health standards. The village's system vigilantly safeguards its drinking water supply, and the village had no violation of a contaminant level or of any other water quality standard in the previous year. The village will remain committed to conservation and community education, while continuing to serve the needs of all water users. The complete report is available on the village's website at www.schaumburg.com/waterreport. For questions, contact Brian Wagner at bwagner@schaumburg.com or dial 311 in Schaumburg.

Nursing Services Available to the Community

The Village of Schaumburg's Nursing and Senior Services Division provides a variety of free and low-cost services to Schaumburg residents at its Nursing and Senior Services office located at 746 E. Schaumburg Rd. Some of the beneficial services include:

- Blood pressure, heart rate and blood sugar checks
- Lending of medical equipment
- Disposal of medication, syringes and needles
- Community Blood Drives
- Memory screenings
- Medication education
- General consultation/advice regarding medical issues
- Non-medical companionship

For the full list of nursing services and community programs, visit the village's website at www.schaumburg.com/nursing. For questions, contact Kathy Henkelman at khenkelman@schaumburg.com or call Nursing and Senior Services at (847) 923-3766.

UPCOMING EVENTS: SEPTEMBER - NOVEMBER

Information for upcoming events is tentative and subject to change. Please visit the village's website at www.schaumburg.com or www.prairiecenter.org for the most up-to-date event information or dial 311 in Schaumburg.

SCHAUMBURG STORY: ISABELLA OCAMPO

Celebrating Schaumburg's diversity and recognizing residents who give back to the community.

Q: Tell us about yourself.

A: I will be a senior at Hoffman Estates High School this fall and have lived in Schaumburg since I was in elementary school. I speak Spanish fluently and was taught by my parents at home. When it came time for me to go to school, I was enrolled in English as a Second Language (ESL) classes. I also started taking Spanish classes in middle school to further advance my language skills. I love speaking Spanish because it makes me feel more connected to my Hispanic community and my identity as a Latina woman. I also regularly communicate in Spanish with my family in Mexico. My parents are from the town of Tilzapotla and the city of Cuernavaca, both located in the Mexican state of Morelos.

This year, I was eligible to participate in the Spanish exchange program. In December, I started communicating with a Spanish exchange student, Gabriel, and hosted him in my family's home for two weeks. It was eye-opening to experience cultures and customs other than my own. Earlier this year, I had the opportunity to go to Spain, be hosted by an exchange family, and visit Barcelona and Madrid.

Q: How do you give back to the community?

A: Over the last several years, I have signed up for many volunteer opportunities in the community, including visiting young children in hospitals and seniors in retirement homes. During the last school year, I accumulated approximately 100 hours of community service hours alone. Some places I volunteer include the Schaumburg Township District Library, Feed My Starving Children, Hoffman Estates High School events and clubs, Woodfield Area Children's Organization and the Special Olympics. Earlier this year, I helped one of my school clubs make "Hawk Kits" for the homeless in Chicago. Hygiene products (shampoo, pads, conditioner, lotion, deodorant, etc.) are placed in a bag branded with our school mascot, the hawk. There are many volunteer opportunities for teens like me to participate in the Schaumburg community.

To read more about Isabella's story or nominate someone to be featured as a Schaumburg Story, visit the village's website at www.schaumburg.com/story. For questions, contact Becky Wyskochil at rwyskochil@schaumburg.com or dial 311 in Schaumburg.

The Cracker Barrel is prepared quarterly by the village's Communications & Outreach Department. Questions? Contact Communications Specialist Becky Wyskochil at rwyskochil@schaumburg.com.
