### **Statement of Activities**

#### **Background**

The Village of Schaumburg created the Exporior Tax Increment Financing District (TIF) on April 27, 2021. At the time of implementing the TIF, the goal of the Village of Schaumburg was to reduce or eliminate conditions that qualify the proposed Exporior Redevelopment Project Area as a blighted area and to provide the direction and mechanisms necessary to develop and/or redevelop the Exporior Redevelopment Project Area as a vibrant, commercial employment district.

The redevelopment project area qualified as a “blighted area” as defined by the applicable State Act at the time. It meets the “One-Factor” Test with the flooding factor. The redevelopment project area also meets the “Two-Factor” Test with obsolete platting and lack of growth in equalized assessed valuation (“EAV”).

The proposed future land-use of the Exporior Redevelopment Project Area is industrial and commercial. The Exporior TIF seeks to:

- Encourage the construction of new industrial and commercial development
- Foster the replacement, repair, construction and/or improvement of public infrastructure
- Facilitate the renovation or construction of stormwater management systems and flood control
- Provide resources for streetscaping, landscaping and signage
- Facilitate site assembly and preparation
- Support the goals and objectives of other overlapping plans
- Coordinate available federal, state and local resources

Redevelopment on the proposed Exporior Redevelopment Project Area is intended to revitalize the area, strengthen the economic base, and enhance the Village’s overall quality of life.

#### **2024 Activities**

In the fiscal year ended April 30, 2024, \$2,661 was expended on legal services and \$1,602,351 was expended on capital costs for the TIF district.

#### **Future Activities**

Schaumburg anticipates the following improvements to start within the next twelve months:

1. Construction of the warehouse
2. Development of the fuel station
3. Completion of the truck parking lot

There also is ongoing site and infrastructure work to develop the Exporior Logistics Campus.

**Financial**

Since the TIF was created, the village has expended approximately \$1,705,807. The expenditure items included legal services, consulting services, and capital costs.

Sincerely,

Village of Schaumburg

Director of Finance

A motion was made by Tim Gerhardt, seconded by Lauren Hummel to approve the minutes from December 1, 2022.

**All Ayes.**

**MOTION CARRIED**

**4. REVIEW OF PROGRESS – MATT FRANK**

Mr. Frank said this is our most recent TIF district which is roughly 55-acres at the southwest corner of Rodenburg and Irving Park Roads. This is a project specific development with Exterior Transport looking to develop a logistics campus here. These are elevations (referring to a slide) as to what this is expected to look like. They have started some construction and anticipate having a new headquarters, warehouse facility, gas station, truck repair and sales facility.

Mr. Frank said another key component is the access road from our Metra train station to the west to Rodenburg Road. This is being developed now and will provide secondary access to that site. Rodenburg is being developed with the assistance of a grant in partnership with

the Village of Roselle and Schaumburg. We received a Rebuild Illinois grant to help assist with the access road connecting to the train station for secondary access to this development.

Mr. Frank said a groundbreaking was celebrated in May. We're anticipating some vertical development in 2024, to be completed in late 2025.

Mr. Frank said I should note this was Village owned property. We have a \$20 million incentive deal with them to facilitate this. Once that \$20 million is paid out and our share of the roadwork access is covered, this TIF will be closed.

Chairman Dunham asked how long do you anticipate this will take?

Mr. Frank said within 10 years.

### **5. REVIEW OF FINANCIAL INFORMATION**

Ms. Fabyan said there is currently no equalized assessed value and no property tax increment for 2023. The total expenditures for 2023 were \$9,799 for legal services and the fund balance is \$(25,794).

Ms. Fabyan asks is there are any questions regarding the financials. There were none.

### **6. QUESTIONS/DISCUSSION**

Chairman Dunham asked if anyone had any general questions.

### **7. ADJOURNMENT**

A motion was made by Tim Gerhardt, seconded by Lauren Hummel to adjourn the meeting at 10:50 a.m.

**All Ayes.**

**RE: Exporior TIF | Financial Review and Returns Analysis**

## Introduction

SB Friedman Development Advisors, LLC (SB Friedman) was engaged by the Village of Schaumburg, Illinois (the "Village") to conduct a financial review and returns analysis of the Exporior project (the "Project"), a proposed development of the vacant 60.5-acre site located at the southwest corner of Irving Park Road and Rodenburg Road (the "Site"). The Site was acquired by Exporior, a trucking and logistics company to develop its operational headquarters along with warehousing maintenance functions. Specifically, the Project consists of three primary components:

- 40,000 square foot distribution facility wrapped with a 40,000 square foot office building
- 28,000 square foot truck maintenance facility
- Service station with a 5,000 square foot convenience store
- 635 parking spaces of which 368 spaces will be leased

The proposed Project would create 200 new jobs in the Village and generate incremental property and sales taxes. However, the development is challenged by approximately \$23 million in extraordinary costs related to stormwater management improvements, wetlands mitigation, environmental remediation, and the need to improve public infrastructure (roads and utilities) to service the site. The Village designated the Exporior Redevelopment Area/Tax Increment Finance (TIF) District (the "TIF District") encompassing the site and executed a redevelopment agreement ("RDA") with Exporior in January 2022 to reimburse Exporior up to \$20 million in TIF eligible costs on a pay-as-you-go basis. The Project is expected to begin construction in 2023 and be developed over an 18-month period.

Pursuant to the Illinois Tax Increment Allocation Redevelopment Act in the Illinois Municipal Code (the "TIF Act"), the Village is required to prepare a third-party estimate of the rate of return on the Project after accounting for the TIF assistance. This memorandum provides a summary of the Project returns with TIF assistance, and a summary of the methodology used for the estimation of returns.

## Analysis Framework and Methodology

The Project is a build-to-suit owner-occupied development. The real estate investment returns on such projects are difficult to estimate because the returns would be based on the business operations and revenues. For the purposes of estimating returns, SB Friedman treated the Project as an investment property where the individual buildings – office and warehouse, maintenance facility and service station are assumed to be leased at market rents. This structure allows estimation of project returns through a traditional pro forma analysis. Key inputs to the pro forma analysis and the sources of information are summarized below and detailed in **Appendix B**.

- **Project investment/development budget:** As indicated in the RDA, the Project is required to have a minimum investment of \$50 million of which about \$23 million was related to public infrastructure and horizontal improvements of the site.
- **The net operating income (NOI) from rental income:** NOI estimates were based on SB Friedman’s analysis of comparable net rents of warehouse distribution, corporate office, and convenience retail in the Schaumburg market area. The NOI at stabilization is estimated to be \$2.06 million.
- **The TIF reimbursement from the Village:** Incremental TIF revenues were calculated based on the probable equalized assessed value of the development, the base value, the Village tax rate, and an assessed value inflation rate of 2%. TIF reimbursement to the Project following the first full year of stabilization and assessment is estimated to be \$1.09 million.
- **A reversion in year 10 from a hypothetical sale of the property:** Capitalization rates (cap rates) for the reversion were derived based on benchmark data from Real Estate Research Corporation and Price Water House Cooper.

## Returns Estimate

The pro forma analysis and the estimated project returns are shown in **Figure 1**. Two returns metrics were estimated for the analysis:

- **Stabilized yield on cost:** This metric is calculated by dividing annual net operating income (NOI) before debt service plus the TIF reimbursement owed by the Village in the first year of stabilized operations by total project costs. This return metric is an indicator of the annual overall return on investment for the Project. The stabilized yield on cost for the Project is estimated to be 6.3%.
- **Unleveraged internal rate of return (IRR):** This is the rate of return or discount rate for a project, accounting for initial expenditures to construct the Project and ongoing cash inflows (annual net operating income [NOI] before debt service), as well as a hypothetical sale of the Project at the end of the analysis period, if applicable. The unleveraged IRR is estimated to be 4.8% for the Project.

### LIMITATIONS OF OUR ENGAGEMENT

Our deliverables are based on estimates, assumptions and other information developed from research of the market, knowledge of the industry, and meetings/teleconferences with the Village of Schaumburg (the "Village") and the Developer during which we obtained certain information. The sources of information and bases of the estimates and assumptions are stated in the deliverables. Some assumptions inevitably will not materialize, and unanticipated events and circumstances may occur; therefore, actual results achieved during the period covered by our analysis will necessarily vary from those described in our report, and the variations may be material.

The terms of this engagement are such that we have no obligation to revise analyses or the deliverables to reflect events or conditions that occur subsequent to the date of the deliverable. These events or conditions include, without limitation, economic growth trends, governmental actions, changes in state statute or Village ordinance, additional competitive developments, interest rates, and other market factors. However, we will be available to discuss the necessity for revision in view of changes in the economic or market factors affecting the proposed project.

Our deliverables are intended solely for your information and is not a recommendation to issue bonds or other securities. The report should not be relied upon by any other person, firm or corporation, or for any other purposes. Neither the report nor its contents, nor any reference to our Firm, may be included or quoted in any offering circular or registration statement, appraisal, sales brochure, prospectus, loan, or other agreement or document intended for use in obtaining funds from individual investors without our prior written consent.

We acknowledge that upon submission to the Village, the report may become a public document within the meaning of the Freedom of Information Act. Nothing in these limitations is intended to block the disclosure of the documents under such Act.
